

My hearty welcome to one and all. I would like to thank you all for responding to our invitation and gracing this occasion.

I have great pleasure in presenting to you the Annual Day Report. This year has been a very challenging session for us. We have made great efforts to transform ourselves completely into the online platform and have been extremely successful in most of our endeavors. Apart from preparing the children to qualify for purely academic demands, special efforts are being made continuously to enable them to face the challenges of the competitive world. And session 2020-21 became more challenging to all due to Covid 19 pandemic. It's a matter of great importance to us that the students who pass out from our portals should carry forward the values they have inherited, excel in whatever they do and be role models in the society.

Let me give you a Brief History of CPS:

CENTURION Public School, is the sister association with Centurion University of Technology and management and it runs under guidance of our president Dr. Muktikant Mishra and Vice President

Prff,D,N Rao with our director Mr; Rajesh Kumar Padhy.
The school is completed nine flowering session
successfully.

Our Academics:

We are proud to report that 2019-20 batch of X Std students have brought excellent results. We achieved 100% results in CBSE class X examination held in March 2020 with more than 80 % First classes. This was possible because of the continuous efforts by the dedicated staff and by taking extra classes and other remedial measures to improve them.

Our Biggest achievement in the current year was to migrate from the old system of education to online platform with continuous and comprehensive process for the complete school from Class Nur to 10th. The child's academics performance is measured in a series of Periodic assignment and Term examinations with a lot of emphasis on Learning through Doing Process.

At cps all examinations are conducted in a board format where the question papers are designed by multiple teachers so that every time a child writes the exam, he is facing a new challenge on his own without any help from his teachers.

We have Incorporated 6 mobile DIGITAL Visual rooms for demonstration of the smart classes. The school has tied up with DS DIGITAL and K CLASS company for interactive teaching from KG to 10th. The SMART CLASS provides great support through audio visual approach in addition to the normal chalk and talk method.

Our students were given the opportunity to participate in All India Talent Examination in mathematics , science, English and IT organized by Olympiad foundation of different streams. Many students have reached the state and national level in these examinations.

Special Communiqué program has been organized from primary classes to enhance their communication skills .

A large number of projects have been implemented in the year to emphasize on the concept of learning through doing for better concept penetration. We are conducting jee and Neet, Ntse classes from std-viii onward for better future of students. So we will try our best to improve in our academics and other curricular activities in parallel with this situations.

So We hope ,all our parents and management will be cooperating with us forever.

Thank you
